

Solutions NZ Ltd

"Keeping New Zealand On Its Feet"

Little Grippa

**MADE IN
NEW ZEALAND**

Little Grippa strips are the "tough", hard wearing answer to all slippery surfaces.

Offering high visibility for step edge definition, depending on quantity, they are available in a vast range of colours.

Little Grippas can be fixed to Steel, Wood, Fibreglass and Concrete steps, ramps & decks.

For larger areas plates are also available. These can be pre-formed ready to be fixed on site.

Unlike coatings, Little Grippas do not have to rely on dry weather for application or curing. Once fixed they are ready for immediate use.

Little Grippas offer many solutions to the Marine, Automotive & other transport industries.
