"Keeping New Zealand On Its Feet"

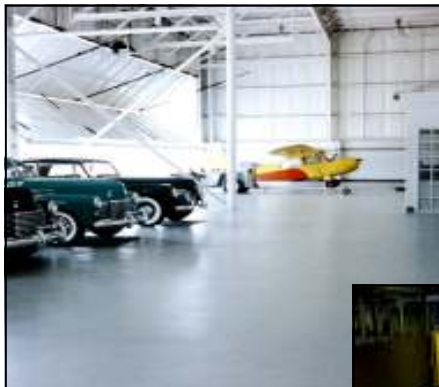

# *SupaTuff*

## *Concrete Floor Coatings*

*Preserves, Protects & Upgrades Concrete Floors*

A slip resistant Epoxy floor coating, formulated for the protection of concrete floors. As well as offering excellent abrasion resistance it contributes to a long service life in heavy traffic areas. Specially formulated to eliminate hot tyre pick up, it is also resistant to petrol, chemicals, salt, oil, engine coolant, transmission & brake fluids, in fact anything that can leak from your vehicle.

A resilient surface that ensures easy cleaning with no fungal attack.

### **Transport Applications**

SupaTuff applied in this Hanger / Garage provides a surface coating which is attractive, easy to clean and hard wearing.

SupaTuff is available in either a water or solvent based formulations.

Other formulations include Acid Resistant, Potable water and Food Grade.

### **Industrial Applications**

Not only does Supatuffs slip resistance offer safety for your staff, but with the 11 different colours available, walkways & areas of caution or keep clear areas can be easily defined.

With it's low odour application, Water based SupaTuff is ideal for food preparation areas.
