

Anti-Slip

Solutions NZ Ltd

"Keeping New Zealand On Its Feet"

Safety Around Your Winery

Can we help in protecting your clients and staff ?

All around your establishment there may be hidden dangers just waiting for a slip / fall accident to happen.

At Anti-Slip Solutions we have many different products to overcome "Slippery When Wet" areas. These could be floor tiles, wooden decks and steps even wet concrete, in fact almost anywhere you walk or step.

Restaurants can certainly be problem areas, it might be a tiled floor which becomes slippery when a drink is accidentally spilt or customers walk in with wet shoes. Is a wet kitchen floor causing problems for your staff?

How about your production and bottling areas, do these become wet and slippery? You may have steps that are dimly lit and or slippery If so would a slip resistant nosing make them safer?

WHY NOT CALL US ON THE 0800 NUMBER BELOW FOR A FREE NO OBLIGATION CONSULTATION.
